Students who are **suspended** in the final ranking for the awarding of the scholarship will also have their food service in discounted rate suspended.

In case of subsequent enrollment, it will be necessary to open a ticket to communicate the enrollment to use the service again in discounted rate.

## ECONOMIC REQUIREMENTS

**In order to enjoy the discounted rate** the economic requirements are determined on the basis of incomes and assets conditions of the student's immediate family.

The maximum ISEE and ISPE levels are set within the price brackets table. Below these two limits it is possible to apply for discounted fares. If students exceed one or both these limits, there will be no chance for discounts.

Starting from 1st January 2015 D.P.C.M. 159/2013 became law and has significantly amended the rules to fill out the ISEE certificate for the right to Education (Art.3 of the Food Service Regulation). Hence, students who apply for 2025/26 Edisu Food service, must submit a new ISEE Universitario certificate, issued from January 2026, referring to 2024 annual household incomes and assets held at 31st December 2024.

**International Students do not have to get an ISEE Parificato before applying:** the ISEE Parificato values will be calculated by EDISU Piemonte directly, with the assistance of the CAAF offices under agreement, according to the economic information in the submitted **consular documents**. EDISU Piemonte only accepts the ISEE Parificato drawn up by the operators of affiliated CAAFs and calculated directly in EDISU. Even if valid, ISEE Parificato certificates handed in by students and processed c/o CAAF

offices, even if affiliated with the organisation, will not be accepted under any circumstances.

The **exchange rate** is calculated according to the official one of the Italian Bank ("*Banca d'Italia*"): for EU students, it is the one on 31 Dec. 2023 (or the previous first working day); for non-EU students, it is the one on 31 Dec. 2024 (or the previous first working day). For more info about the calculation system of the ISEE parificato, check our website [www.edisu.piemonte.it](http://www.edisu.piemonte.it).

**The Consular Documents consist of certificates or declarations, issued in original copy, stating:**

### **The student's family composition**

Information about the student's parents must always be provided

If the student is married, the family is composed by the student, the spouse, the children and other possible members. The student's parents must be included if they live in the same family unit of the student or if neither the student nor his/her spouse is independent.

**The annual overall gross incomes earned abroad.** The incomes of each member in the family unit that was adult on 1 Jan 2025 (including the students and her/his siblings) must be taken into account.

Non-EU students must provide the income of 2024, EU students must provide the income of 2023.

If any adult members of the family did not work, the documents must specify their unemployment condition in the required year.

**The bank accounts/deposits and any other movable assets (bonds, shares etc.)** possessed by each member in the family unit that was adult on 1 Jan 2025 (including the students and her/his siblings).

Non-EU students must provide the assets on 31 Dec. 2024, EU students must provide the assets on 31 Dec. 2023.

Whenever there is an adult member without a bank account on the required date, this info must be specified: only for this info, an affidavit or a notary certificate is acceptable.

The **immovable assets (real estate)** possessed by each member in the family unit that was adult on 1 Jan 2025 (including the students and her/his siblings). Non-EU students must provide the assets on 31 Dec. 2024, EU students must provide the assets on 31 Dec. 2023. This document is required even if none of the adult members of the family possesses any assets, or if it is not possessed anymore when the document is issued. The property certificates must compulsorily specify the **square meters** of the property.

**Students who want to apply as independent** (i.e. without submitting the economic documents related to their parents) must submit documents proving their own income from work in 2023 and 2024 and that they have been living on their own for 2 years at least. The income in 2024 and 2023 must be **9,000.00 €** per year at least. Independent students will be required to upload the document proving they were living on their own during the online application.

#### **STUDENTS WHO HAVE APPLIED FOR RESTAURANT SERVICE BEFORE**

**ONLY NON-EU successive-year students, with family residing abroad, who in the previous year applied for food service and whose economic condition has not changed, can confirm their economic data.**

#### **STUDENTS APPLYING FOR FOOD SERVICE FOR THE FIRST TIME**

**Students can find all the information about the consular documents in the Scholarship Notice of Competition of the current academic year or in the appendix at the end of this document.**

**In order to apply for the dicounted fare for the Restaurant Service NO MERIT REQUIREMENT IS REQUESTED.**

All the students can apply for discounted prices for the **legal duration of their course of studies** (counted starting from the year of first enrolment) **plus three years**, except for:

- students who have a recognition of their disability according to art. 3 par. 1 law 104/1992

personal data, the period of stay (or the date of arrival and the date of departure), the Department and the attended course.

If the students need to extend the period of stay for study purposes, the host university must provide to Edisu the details of the extension for the renewal of restaurant service (otherwise it will be disabled).

Please note that, in the event of an extension or changes to personal details, **students must wait 36 hours** from receipt of the extension confirmation email before they can once again take advantage of the discounted rate in the canteen.

**International Mobility students DO NOT HAVE TO REGISTER AND APPLY for the temporary code** but they have to use the credential that University sent them. If students didn't receive it, they must use the credentials sent by Edisu to the email address communicated by the University.

**In order to have access to university canteens and alternative services paying the first price bracket students have to download the APP Campus Piemonte ID Meal**, available and downloadable free of charge from **Play Store**, **App Store** and **AppGallery**. Then students must associate the APP according to the instructions provided on the Edisu website.

## OTHER DISPOSAL

**In order to apply for the dicounted rates for the Food Service  
NO MERIT REQUIREMENT IS REQUESTED.**

All the students can apply for discounted prices for the **legal duration of their course of studies** (counted starting from the year of first enrolment) **plus three years**, except for:

- students with disabilities, whose level of invalidity is equal to or higher than 66%
- students who have a recognition of their disability according to art. 3 par. 1 law 104/1992
- students in possession of a certification attesting recognition of DSA and/or ADHD.

for whom no limit of years is given.

Students who result suspended on the final ranking list for scholarship assignment or who are excluded for reasons related to failure to complete enrollment will also have their food service suspended.

If they subsequently enroll in the program indicated on their application, they must open a ticket to notify Edisu of their enrollment in order to be able to use the service again at the reduced rate.

If, however, they are still enrolled in the bachelor's degree program, they will need to submit a request by attaching a certificate of enrollment for that level of study, as Edisu does not automatically verify enrollment in programs other than those indicated in the application.

Applications may only be submitted after successful enrollment. If an invalid student ID number is provided, EDISU will be unable to process the application; the student will therefore be required to open a support ticket to provide the correct number.

If any corrections or changes are made to the application submitted during the academic year, students must wait 36 hours

before they can use the service again, to allow for proper data synchronization.

Furthermore, if the fiscal code used to submit the application (which must match the one on file with the University) is changed, students are required to promptly notify EDISU via a support ticket and to dissociate the APP from the previous profile, then reassociate it with the profile linked to the new data.

EDISU reserves the right to conduct, during the academic year, any checks necessary to verify that the information provided by students when completing the application is truthfully accurate.

### DETAILS FOR THE CONSULAR DOCUMENTS TO BE PROVIDED & SAMPLES OF INTERNATIONAL DOCUMENTS RELATED TO FAMILY COMPOSITION, INCOME AND IMMOVABLE PROPERTIES FOR THE CURRENT YEAR BENEFITS APPLICATION

In these pages you can find (1) more details about the info you must provide in the consular documents and (2) a list of samples divided by Country.

#### (1) DETAILS FOR THE CONSULAR DOCUMENTS TO BE PROVIDED

Here you can find the details about the information to include in the economic documentation for all the international students (Extra-UE and UE). You can also find the most common exceptions. If in the following list you don't find your specific case, we ask you to contact us by our ticketing service on our web-site. Furthermore, it is possible to check down here the documentation submitted during the past years, country by country.

#### 1. FAMILY COMPOSITION

It is a certificate in which any person living with the student appears. It has to show the name, surname and date of birth for all the members.

**Parents:** the information about parents has to be always provided, unless you are applying as independent student (see below) or there are these particular situations:

- a) **Death:** it is necessary to indicate the death of a parent in the family composition certificate. If it is not possible, you can submit a death certificate, which can be in unoriginal copy, without legalization. We accept this document in English, French and Spanish language as well. Orphan students have to issue their family composition on the base

on the art. 6 comma 1.6, only in case the student lives on its own.

- b) **Divorce or legal separation:** it is necessary to specify any situation like divorce or legal separation in the family composition certificate. If it is not possible, you can submit a divorce or legal separation certificate which can be in unoriginal copy, without legalization. We accept this document in English, French and Spanish language as well.
- c) **Economic-affective extraneousness:** if there are no emotional economic ties with the one of the biological parents, that must be specified in the family composition certificate. If it is not possible, you can submit an economic-affective extraneousness certificate which can be in unoriginal copy, without legalization. We accept this document in English, French and Spanish language as well. If the student can produce only a self-declaration, it is necessary to translate it into Italian and legalize it.

**Members not living with the student:** for all the members appearing in the family composition certificate, who are adult on the 1<sup>st</sup> January 2024, documentation attesting gross incomes and movable and immovable properties must be submitted. It is possible to exclude the members that do not live anymore with the student by submitting specific documentation attesting this condition (it is also possible to submit this certificate in unoriginal copy, without legalization. It is possible to deliver it in English, Spanish or French language).

That is not possible if the person that does not live with the student is a parent or the spouse of one of the student's family member: in that case, the related info has to be submitted always.

**Married students:** it is necessary to include the student, their spouse and any children or other people living with them. Parents' spouses have to be included in the family composition only if they are living with one of the spouses or if it is not

possible to achieve the requirements as independent student even if their residence is different (see below).

**Adult members:** all the student's family members (student itself) that were or turned 18 years old during the 2023 (1 January-31 December) so that they were adult on 1<sup>st</sup> January 2024 (the members born on 1 Jan. 2006 are excluded by the category).

**New marriage:** if the parent the student lives with has got a second marriage, the new spouse has to be included (her/his income and assets info have to be submitted)

## 2. INCOMES

It is necessary to submit the yearly gross incomes for all the student's family members that were adult on 1<sup>st</sup> January 2024. In case a member had no income during the required year, a zero income or an unemployment certificate is required. The information is mandatory even for those members that were not adult in the required year but were adult on 1<sup>st</sup> January 2024.

**Income type:** the overall yearly gross income is required. Documents attesting the net income or a generic one, without specifying "the gross", will be not accepted. However, certificates with tables or tax return declarations showing tax deductions, pensions or any bonus that let infer the gross income are acceptable even without the specific "gross".

**Required currency:** the income has to be in the local currency of your Country. Documents providing other currencies will be rejected: EDISU will make the conversion local currency/Euro to calculate the ISEE Parificato on its own. If a document provides the income both in Euro and in local currency, it will be accepted but the provided Euro value will not be taken into account.

**Exchange rate:** it is calculated according to the official one of the Italian Bank ("Banca d'Italia"): for EU students, it is the one on 31 Dec. 2023 (or the previous first working day); for extra-EU students, it is the one on 31 Dec. 2024 (or the previous first working day). For more info about the calculation

Incomes of two different years or different calendar systems (for instance, incomes from march 2024 to march 2025) are not acceptable.

**Attention:** if you submit the payments of each month, EDISU will add one month more for the ISEE calculation, unless you submit a document attesting the 13<sup>th</sup> monthly payment.

**Unemployment:** For the student's family members that were adult on the 1<sup>st</sup> January 2025 without any incomes in the requested year, it is necessary to submit a document attesting the lack of incomes or the unemployment condition for that specific year.

For any adult siblings on the 1<sup>st</sup> January 2025 or for the student itself (if adult on the 1<sup>st</sup> January 2025) it is acceptable a school/university enrollment certificate valid as unemployment attestation at the requested year (it must be translated into Italian and legalized).

**Pensions:** In case of retired members, it is necessary to present the documentation regarding the gross pension amount of the whole required year or the pension of every single month from January to December. Submitting the pension of a single month will not be acceptable. Furthermore, other incomes support or benefits have to be provided for any adult member.

Attention: if you submit the payments of each month, EDISU will add one month more for the ISEE calculation, unless you submit a document attesting the 13<sup>th</sup> monthly payment.

### 3. MOVABLE PROPERTIES

For all the student's family members that were adult on the 1<sup>st</sup> January 2025, it is necessary to submit information about the presence or lack of movable property (deposits, current accounts, saving accounts). The information is mandatory even for those members that were not adult in the required year but were adult on 1<sup>st</sup> January 2025.

**Presence of movable property:** for all the Extra-EU students, it is necessary to show the bank account balance on the 31<sup>st</sup> December 2024 or the average balance for the whole 2024; the EU students have to submit the bank account balance on the 31<sup>st</sup> December 2023 or the average balance referring to the whole 2023. This is the only document that can be provided in a notary self-declaration or *affidavit*. In this case the documentation has to be translated in Italian and legalized.

It will be not be accepted documentation issued by the single credit institutions, banks, financials or other private institutions.

### 4. REAL ESTATE ASSETS

A rent contract will be not accepted as lack of properties document.

**Lands for agriculture use:** a document attesting the properties of lands for agriculture use is not necessary. However, you can submit it if it is an extract from cadaster in order to attest the lack or properties only if it includes all the citizen's immovable property.

**Rent contract:** The rent contract cannot be used to certify the lack of immovable properties. However, the students can deliver it to EDISU in order to receive the rent deduction to calculate the ISEE values. Rental fees higher or equal to the whole familiar income will be not deducted.

## 5. INDEPENDENT STUDENTS

The independent student is that kind of student, unmarried or married, who wants to apply without including its parents' household.

In addition to the documentation already mentioned, the independent student has to provide more documentation attesting the *independence status*, that is:

In order to certify it, it is possible to submit a rental document, a residence certificate or, if the house is yours, a property deed.

### (2) LIST OF SAMPLES

The documents described below are only an example based on the previous year's documentation. Any other document that meets the requirements as specified in Article 30, paragraph 3 of the Notice of Competition, English version, can be acceptable.

If students submit any documents listed below but those ones do not meet the requirements because of any reasons as per the art. 30 par. 3 of the Notice of Competition, English version, the documents will be rejected.

The names of the issuing institutions you find here are the result of a translation from the Italian version of the documents we got during the previous years. Therefore, they might not match with the official English name of your Country's institution.

The documentation described below is divided by Country. Unfortunately, since there are no samples from many countries, you might not find the samples for your specific situation. In that case, you must follow the description of the required documents at the art. 30 par. 3 of the 2025/26 notice of competition (English version) and also in the current file and find out the documentation that meets the requirements with the institutions of your Country directly.

If students have any doubt about specific documents, they can open a ticket at the section 4 (international students) to ask their question: however, the whole documentation will be not valued by ticket. In fact, the correctness of the documents can be assessed only by the EDISU staff, once they receive the original copies of students' documentation.

The documents described below do not include the certificates related to the **movable properties** (bank accounts, deposits, shares, bonds etc.). Normally, for every Country, a certificate issued by the bank or the private company involved is required. It is also acceptable in English, French or Spanish and not legalized.

To prove the **lack of movable properties** (bank accounts, deposits, shares, bonds etc.), students must submit the related certificate issued by the office in charge of their Country or, if it is not available, an affidavit or any other notary documents in which it is stated that one or more family members are not owner of movable

properties. In case students submit the affidavit/notary document, it must be translated into Italian and legalized.

EDISU will verify the authenticity of the documents: if they find any fake or falsification, the student will be excluded from the definitive ranking list and reported to the fees office of her/his university in order to warn them for the fee reduction procedure.
